Profile

Detail-oriented Computer Science undergraduate seeking a QA Trainee opportunity. Hands-on experience in Manual Testing, Selenium WebDriver, API Testing, SQL, and defect reporting through academic and internship projects. Familiar with SDLC, STLC, Agile methodologies, regression testing, functional testing, and test case design. Passionate about software quality, automation, and continuous learning.

Technologies

- **Testing & Automation** : Selenium WebDriver, Postman, JMeter, Manual Testing, Playwright in learning
- **Languages & Frameworks** : JavaScript, Python, Java, Node.js, SQL
- **Tools & Methodologies** : Jira, Git, GitHub, GitHub Actions, SDLC, STLC, Agile/Scrum, Test Planning, Bug Reporting
- **Soft Skill**: Analytical Thinking, Logical Problem Solving, Attention to Detail, Communication, Team Collaboration, Adaptability

Projects

Enterprise QA Automation Framework | *Java, Selenium WebDriver, TestNG, Postman, JavaScript, Node.js, GitHub Actions*

- Designed and developed a reusable QA automation framework using Selenium WebDriver and TestNG, following the Page Object Model (POM) and reusable test automation practices.
- Automated **80+** test scenarios covering UI regression, REST API, integration, and end-to-end testing for an examination management system, improving testing efficiency and reducing manual effort.
- Implemented Selenium-based UI automation for critical workflows including student registration, login, examination management, and result verification with reusable page objects and detailed execution reports.
- Designed and executed REST API test suites using **Postman** validating request/response payloads, authentication, status codes, and business logic.
- Integrated automated UI and API test execution into **GitHub Actions CI/CD**, generating HTML reports and enabling continuous quality validation on every code change.

StudyAI – Smart AI Study Companion & Quiz Generator | *React.js, Flask, Firebase, Groq API, Git*

- Developed a full-stack AI-powered study platform for quiz generation, study material management, and learning progress tracking.
- Built responsive frontend interfaces using React.js and integrated Flask REST APIs with Firebase for data management.
- Performed **manual, functional, and API testing** using Postman to validate core application workflows, including **AI-powered quiz generation, flashcard generation, and summary generation** using the **Groq API**.
- Executed **regression testing** after feature updates and collaborated using Git and GitHub for version control..

Work Experience

Quality Assurance Intern, *Apex CoVantage Solutions*

Guntur, India | Dec 2023 – May 2024

- Performed quality assurance checks on digitized publishing content to ensure accuracy and formatting consistency.
- Used Jira to report and track issues, collaborating with teams to resolve errors in the production pipeline.
- Performed QA by testing outputs, identifying errors, and ensuring accurate final PDF delivery.
- Ran SQL queries to check and update database records.
- Used Adobe Photoshop to inspect and fix visual errors.
- Worked with teams to resolve bugs in the production line.
- Ensured final PDF outputs met all quality standards before delivery.

Education

VVIT – Vasireddy Venkatadri Institute of Technology

B. Tech in Computer Science – Current CGPA : 8.0/10

Guntur | Expected Graduation: 2027

Relevant Coursework: Software Engineering, DSA, Database Systems, OS, OOP, Computer Networks

Kallam Haranadha Reddy Institute of Technology

Diploma in Computer Engineering – 88%

Guntur | 07/2024

SCMPMC High School

SSC – 99%

Guntur | 04/2021

Certificates

Java Programming – NPTEL

Microsoft Azure AI Fundamentals (AI-900)– Microsoft

Google Generative AI Essentials – Google

Cisco IT Essentials – Cisco

ISTQB Certified Tester Foundation (In Progress) – ISTQB
